Consultant Physician in Elderly Medicine.

Replacement full time substantive role as part of our dynamic forward thinking team of geriatricians providing high quality patient centred care throughout the patient journey.

Department of Elderly Medicine, Hull Royal Infirmary (HRI).

Closing date for applications: 19th October 2017

To apply or find out more, please email Clare Beaumont, HR Business Partner (Medicine) clare.beaumont@hey.nhs.uk

You’ll play an important role within a multi award winning team of 13 consultant geriatricians providing the best possible care to our frail older patients.

You’ll be based on one of the four 29 bedded base wards, on our 21 bedded newly refurbished Elderly Admissions Unit for Frailty (EAU) or right at the heart of the action within the brand new Emergency Department as part of our nationally recognised Frailty Intervention Team (FIT). You’ll be encouraged and fully supported to pursue and develop a subspecialty interest such as Parkinson’s Disease, Community Medicine, Orthogeriatrics or Acute Frailty.

You’ll be a significant part of our exciting adventure within a department that pushes boundaries to achieve excellence in patient care whilst maintaining its ranking within the top 10% of performing geriatric departments nationally, and within a trust who have undergone significant performance transformation over the past 2 years to become the 2nd most improved trust in the UK with ED targets.

You’ll also be based in a great place to live, work and unwind - the UK’s City of Culture.
YOUR WORKING WEEK: THE KEY IS FLEXIBILITY

Your work programme and timetable is flexible, and can be modified to reflect your special interests, expertise and academic interests.

*Provisional work programme
On call duties will include 24-hour consultant medical cover for the elderly base wards and EAU.

THINGS ARE DIFFERENT THESE DAYS

We’ve redeveloped our services to provide high quality care for our patients where they first need it. For many this is within the Emergency Department provided by our award winning multidisciplinary FIT team who avoid unnecessary admissions in 60% of frail patients they see!

For those patients who need admission we have developed the EAU with integrated working with our community partners to provide the right care for our patients in the right setting. Our base wards have undergone transformation and these days utilise not only the traditional MDT but also each have patient discharge assistants, nutritional assistants and our innovative recreational coordinators – as a team we ensure our patients have not only safe, high quality care but also believe strongly in the curing powers of a positive patient experience!

THE BEATING HEART OF HULL

Our Department of Medicine for the Elderly is in the Top Ten of its kind for the shortest Length of Stay in the UK.

The Trust’s ED performance ranks among the Top Twenty nationally.

We’re a Trust on the up, having been named the second most improved Trust in the UK over the course of 2016/17.

Our Acute Care Pathway (including FIT) is an example to follow for other Trusts across the UK, with regular representatives visiting to view our services and pathways.

The school is frequently recognised in league tables for its excellent undergraduate medical curriculum and research, judged to be of high international quality in the 2008 RAE.
IT’S NEVER TOO LATE TO LEARN

We will support you if you have an interest in academic research with the possibility of including dedicated academic time as part of your job plan. You will also be supported to attend and participate in regular departmental and trust organised CPD training.

And every year your appraisal with your dedicated Appraiser with give you the chance to review your progress and agree on new goals. We carry this out under GMC guidance in preparation for revalidation.

OUR STAFF ARE GREAT AND WE SHOUT IT FROM THE ROOFTOPS

We care about you and your career. And we’re not just saying that.

From day one, you’ll join a Trust that always looks out for you. A Trust that makes sure you feel an integral part of the team, and the NHS as a whole. A Trust that listens, learns and improves from feedback. Especially yours. Learn more about the Trust here.

Remarkable people. Extraordinary place.
Hull is the UK’s City of Culture for 2017 and was recently rated by Rough Guide as one of the top ten tourist destinations in the world.

A hub for music festivals, nightlife, restaurants, theatres and bars, with world class visitor attractions and famous sports teams, this is a great and affordable place to work, play, live and unwind.

Read more about Hull here.

We appreciate the value of a healthy work life balance so if you’re looking for a part time position we could be the trust for you. We’ll discuss the Department of Health Flexible Careers Scheme and changing your job description with you if you’re successful.

You must hold or be within 6 months of being eligible for specialist registration in General (Internal) Medicine and Geriatric Medicine.

If you’re shortlisted, you’ll be asked to give a 10-minute presentation on a given topic as part of the selection process.

Interviews will be held within the Hull and East Yorkshire Hospitals NHS Trust.
